

# Carpet Detergents Roto-Brite II

## Description:

---

New carpet maintenance technology incorporating the power of hydrogen peroxide and state of the art encapsulation properties. Roto Brite II is non-surfactant based an ideal product for use in Low Moisture Cleaning Applications such as spray bonnet and cylindrical brush applications where routine carpet maintenance is performed and residues are critical.

Roto Brite II has a neutral ph, will not brown and will not leave surfactant residues that contribute to re-soiling and carpet yellowing. Effectively removes surface soils, beverage stains such as Coffee, tea and soda from the surface as well as light ball point pen ink, greases, oils and tars.

Meets all VOC emission standards and is more effective at removing surface soils than Non-Residual Roto Brite.

## Directions:

---

Mix 12 ounces Roto Brite II with 1 gallon hot, warm or cold water.

Apply to carpet using machine manufacturer's recommended use instructions, normal vacuuming procedures removes the encapsulated soils.

## Product Specifications:

---

---

**pH:** 6.5 - 7.5

---

**Coverage:** Varies

---

**Fragrance:** Low Odor

---

**Appearance:** Clear Liquid

---

**Packaging:** 4/1 gal case, 5 gal,  
55 gal

---

**Distributed by:**

**Chemical Specialties Manufacturing Corporation**
